

Your 1095-C Resource Center

Associates who were offered Staples' full-time medical coverage at any point during 2016 will receive a **tax form called the 1095-C**, even if they did not enroll in coverage. Associates will receive their 1095-C in the mail by January 31, 2017.

The 1095-C is a federal tax form which is part of the **Affordable Care Act** and shows which months Staples offered you medical coverage and which months you and your dependents were enrolled in coverage. The information contained on your 1095-C will also be reported to the IRS.

You do not need to attach the 1095-C to your tax return but should keep it for your records.
